

**PROFILES OF TURKISH FIRMS ATTENDING
THE CTBC/TCBC (DEIK) JOINT ANNUAL CONFERENCE
OTTAWA, MAY 24, 2016**

ADCO

(<http://www.adco.com.tr>)

Founded in 1977 as a distributor of specialty chemicals for the petroleum industry, ADCO has grown rapidly over the years. Through an extensive range of products and an efficient distribution network, the firm is active throughout Turkey, as well as the CIS, the Caucasus, Central Asia, and the Middle East and North Africa. With a wide network of offices and warehouses ADCO has the necessary local knowledge and key global network to meet all your business requirements.

The firm supplies a full range of additives for the petroleum industry that are required during the whole cycle of oil processing: drilling, refining & blending. A major part of our sales activity involves lube oil and fuel additives. ADCO also supplies high quality finished products, especially for the defense industry such as armour protected glass and bulletproof mobile fuel tanks.

ANADOLU STOCKBREEDING

(<http://www.hollandturkeytrade.com/companies/790-anadolu-hayvancilik-sanayi-ve-ticaret-ltd>)

Founded in 1996, Anadolu Stockbreeding (Anadolu Hayvancilik) imports pregnant heifers, genetic materials such as frozen bovine and ovine semen and embryos, veterinary tools and equipment, A.I. materials, milk replacers for calves and lambs, hoof trimming materials, nitrogen containers, and machinery and pasteurizing equipment. Imports are from Canada, the United States, Germany, Holland, France, Denmark and England.

Since 2000, the company has been the exclusive distributor for Alta Genetics owned by Alberta-based Koepon Holding BV, the world's largest private A.I and genetic company in the world. Alta Genetics operates A.I Stations and farms in Canada, the US, Argentina, Brazil (the biggest beef semen operations in the world), China, Australia, New Zealand, Russia, Poland, Germany, Italy, Holland and United Kingdom.

Anadolu imports frozen bovine and ovine semen and embryos from Canada, and mainly from Alta Genetics. Anadolu carries out the majority of semen exports from Canada to Turkey. The firm is the exclusive distributor of Coopex Umotest France for the supply of French breed Montbeliarde as well as distributor of Alpuro Breeding, VanDrie Group for calf milk replacer.

Anadolu Hayvancilik is active in training and preparing educational as well as mating programs for the sector workers both in Turkey and abroad. Company personnel consist of veterinarians and animal scientists.

The purpose of this visit to meet with companies active in the dairy and beef industry and in the genetic market.

ASELSAN

(<http://www.aselsan.com.tr/en-us/Pages/default.aspx>)

ASELSAN became operational in 1970 under the Land Forces Foundation (TAFF) of Turkey. As underlined by the founders of ASELSAN during the foundation of the company, our basic strategy is to develop unique products and systems by making use of critical technologies.

ASELSAN is the leading defence industry company of Turkey with revenues of more than USD 1 billion, 5,000 employees, and exports to 48 countries. The firm has been ranked 62nd within the top 100 global defence industries.

ASELSAN is seeking to develop business with Canadian defence firms both within Canada and/or in 3rd country markets. The firm is currently pursuing potential opportunities with General Dynamics Mission Systems - Canada (GDMS-C) in the domain of remote weapon stations and naval systems. ASELSAN is willing to create brand awareness and expand area of reach with Canadian defence firms

BAŞARAN SHIPYARD

(<http://www.basarangemi.com.tr/eng/?p=hakkimizda>)

Established in 1937, the company is involved in shipbuilding, ship repair, and marine sub-industry work. It also provides expertise and equipment for oil spill remediation.

The firm builds, modifies, maintains and repairs a wide array of fishing vessels, tugs, ferries, passenger vessel type catamarans, yachts, mega- yachts and special purpose vessels, all of which can be modified, maintained and repaired to desired styles and features. Over the past 25 years, the company has modified over 50 vessels and maintained and repaired well over 200 vessels.

The shipyard encompasses and total area of 13,000 m², of which 1,500 m² is closed working space.

EMSAŞ

(<http://www.emsas.com.tr/en/sayfa/11/hakkimizda>)

Established in 1980, EMSAŞ Construction, Tourism, Trade and Industry Co. Inc. is an international construction company specializing in superstructure and infrastructure projects. It is headquartered in Istanbul.

EMSAŞ specializes in turnkey construction of hotel complexes, hospitals and medical facilities, business centers, housing, schools and sport centers. The firm is also involved in the construction of highways, tunnels, bridges, natural gas transmission and distribution line systems, wind power plants, solar energy systems, cogeneration/trigeneration plants, and water treatment plants. In addition to the construction phase, the firm also covers the design process, engineering, project management and consultancy services.

EMSAŞ, supports the technical and design requirements related to advanced architecture, engineering and construction techniques by setting up domestic and foreign strategic partnerships. EMSAŞ always updates itself on current issues which are associated with the latest architectural trends and environmental issues related to construction methods by way of sharing information and experience with our global partners.

For the visit to Canada, we are looking for PPP opportunities where we can cooperate with Canadian firms.

GLOBAL INVESTMENT HOLDINGS

(<http://www.globalyatirim.com.tr/en/>)

Global Investment Holdings became the leading independent brokerage and investment banking firm in Turkey soon after its establishment in 1990. The Company has played a vital role in the development of Turkish capital markets by paving the way for many of the country's leading firms to meet international businesses for the first time.

The Company transformed into an investment portfolio company in late 2004, drawing on its appetite for growing investments and its extensive investment banking experience. With interests in a variety of budding business sectors and traditional non-bank financial service providers, Global Investment Holdings has evolved into a dynamic investment vehicle.

Global investment Holdings operate in four, key business areas: port infrastructure (operating cruise ship terminals and commercial seaports); energy (compressed natural gas sales and distribution, renewable power generation and mining); real estate.

The firm is looking to identify partnership opportunities with Canadian firms in these areas.

GURIS HOLDING CO. INC.

(http://www.guris.com.tr/?_dil=2)

Since its establishment in 1958, GURIS has been one of the leading contracting firms in Turkey and a broad region that includes the Middle East, Near and Central Asia, the Commonwealth of Independent States and North African countries.
